I can guarantee you it won't be provided to law enforcement by you. Because it was already provided to law enforcement by us.

There may be nothing to this, but we should at least be aware.
Dear Dr Fauci,
"I have noticed a striking difference in mortality by CoV-19 in different countries. China and Italy have a mortality that's at least 6-fold higher than that in South Korea. So far Germany and Scandinavia, totalling over 1300 cases, have not reported a single death. That's over a 35-40 fold difference.
Please respond.
